## DETAILED ACTION

### *Drawings*

1. The drawings were received on 9 August 2006. These drawings are acceptable.

### *Allowable Subject Matter*

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention comprises a keyboard apparatus. The closest prior art, Furusho et al. (US 6,310,604) discloses an input/output device like a keyboard apparatus (see Column 16, Lines 20-27) comprising: a fabric [Fig. 17, 105] (see Column 14, Lines 22-35); a plurality of switch units [Fig. 19, 2] coupled to the fabric, wherein each switch unit within the plurality of switch units includes: a capsule/sealed-unit containing an electrically responsive liquid [Fig. 19, 106], wherein the electrically responsive liquid causes the capsule to increase in rigidity/viscosity in response to application of an electric field to the electrically responsive liquid; a switch [Fig. 19, 2b] coupled to the capsule, wherein a selected pressure applied to the capsule activates the switch; and a plurality of electrical conducting lines [Fig. 19, 138] connected to the plurality of switch units (see Column 14, Line 66 - Column 15, Line 35).

Art Unit: 2629

However, Furusho does not expressly teach input/output device being a keyboard apparatus having switch units, as claimed. This distinct structural arrangement has been incorporated into the pending independent claims (i.e. claims 1, 9, 12, and 13), thereby rendering them allowable.

Any comments considered necessary by the applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
